

JAM FOR FREEDOM FESTIVAL 2024 PROGRAMME

4 DAYS & NIGHTS OF 150+ LIBERATING PERFORMANCES, WORKSHOPS & PANELS

APOLLO CENTRE
SPRINGFIELD FARM
ST ALBANS, HERTFORDSHIRE

AUGUST 8TH - 11TH
2024

WE'RE BACK AND BETTER THAN EVER!

Above: Getting arrested for the first time for jamming in a park in February 2021. Note the policeman with the mask over his eyes- oops!

Right: at our debut festival in 2023

Some words from Cambel McLaughlin, Jam for Freedom Founder

Jam for Freedom started as an idea in the parks of London in summer 2020 to bring people together and leave fear behind. We've since evolved into national and international tours, global chapters and our annual festival which is a celebration of artists, thinkers and many fabulous guests who feel the same!

We're so happy that you've joined our second ever festival! It's a mammoth task to put, however its all worth it for the smiles, connections and strength that it all brings us.

We hope you enjoy everything the festival has to offer on the schedule, from live bands and music all day, to all-day workshops and panels, evening DJ's, comedy and much more!

This is a totally independent festival and movement by the people, for the people! I self fund this festival only with your support and from our fantastic sponsors and volunteers.

If you need a hand or have any questions please do chat to our stewards and security so we can help you. Please respect the rules for no noise in the campsite after 11PM.

Thank you once again for being part of our second ever festival! We hope you'll share snaps and videos to friends and family to let them know how much of a great time you're having! Let's keep liberty, peace and positivity alive, **together!** - Cambel

FOUNDER

Meet Gven Sariol

Gven Sariol, founder of ARCrypto, is a beacon of relentless ambition, passion, and resilience. From establishing the largest personal injury firm for cyclists—while simultaneously competing as a committed cyclist and triathlete—to a life-altering battle with colon cancer, Gven's journey is both profound and inspiring.

The battle cost him his illustrious career and much of his fortune. However, this setback became a catalyst for his next venture. Diving deep into the world of cryptocurrency with an initial investment of just \$15,000, he transformed it into several million dollars. His prowess in the crypto realm led him to empower over a thousand students, guiding them towards financial freedom through cryptocurrency investments.

Today, while balancing his roles as a loving husband, proud father, and the dynamic CEO of ARCrypto, Gven's story and impact have caught the attention of major networks like CBS, ABC, NBC, and FOX. His legacy? A testament to the power of persistence, adaptability, and vision.

“Since 1971 gold’s value has increased on average by 7.78% annually.”

statistica.com, 2023

We understand the need for trust when it comes to your money. It’s a source of stability. A source of economic freedom.

That’s why our clients continue to trust our decade of precious metal investment experience, rather than let their assets sit in a bank to face low savings interest.

Unlike currency, stocks, and shares, – which are affected by the uncertainty of inflationary pressures – gold bullion investment offers long term appreciation you can trust.
